IBM Germany Research
and Development

TMCC Europe R & D Support Centers

Böblingen and Mainz, Germany

IBM Germany Research and Development

Our world-class developers have the knowledge, experience and expertise to support you in areas such as consolidation and virtualization, storage solutions, data availability or backup and recovery.

IBM Germany Research and Development has a broad portfolio of solutions in hardware and software, which can help you make the most of your IT infrastructure.

In this portfolio, IBM Germany R&D has developed many unique technologies that are key components to providing modern and innovative solutions for clients and their business success.

Take advantage of our knowledge, assets and experts to unleash the power of business data which will foster innovation and growth within your business.

IBM Executive Briefing Centers – Böblingen and Mainz

The IBM Executive Briefing Centers in Böblingen and Mainz provide the platform from which you can learn from top developers working on innovative business solutions. Choose from a wide range of solutions that include hardware, software and services, so that your briefing can be customized to your business goals.

Be one of more than 8000 clients and business partners who each year experience our:

- *Personal discussions with onsite technical experts and developers*
- *Product showcases*
- *Live solutions demonstrations*

Engage and learn about what's new in energy efficiency or what trends will be impacting your IT infrastructure. We have solutions that can help you reduce costs, improve efficiency and position your business strategically for the future.

IBM Technology Center

Step deeper with our technical experts into the concepts and ideas discussed in your briefing. To demonstrate whether solutions can be applied to your IT environment, we support Proof of Concept (PoC) analyses. We also give detailed and accurate technical assessments based on your IT infrastructure and provide architecture consultancy to enable a more effective IT strategy.

Participation in a technical seminar or workshop allows your IT support team to gain a better understanding of a solution that is being considered. As a client recently commented: "Teamwork was essential in driving our project to its successful completion. That's why PoC's at the TMCC are so effective".

Join us to analyze how the concepts and ideas discussed in your briefing can be implemented to improve your business.
